

The Eutectic Vatna unit,
designed for frozen food
and ice-cream
transportation.

**YOU CARRY
WE CARE**

The Vatna range is an eutectic refrigeration system dedicated to the distribution of frozen food and ice-cream for volumes from 5 to 23 m³.

EASE OF USE

Operating automatically, the Vatna units work by cooling eutectic plates using R404A refrigerant whilst plugged in overnight. Cooling capacity is released during daytime operation
Plug it at night, deliver all day long.

COST EFFICIENCY

Operating automatically, limited maintenance is needed. However, accessibility is enhanced for easy servicing and reduced costs.
Maximum load is possible thanks to the low thickness of the plaques used.

FLEXIBILITY

According to your needs, type of goods, doors openings, vehicle used, nose mount or undermount, different configurations are available. Demonstrating low noise levels, it is suitable for urban deliveries.
